Crea un nuevo repositorio

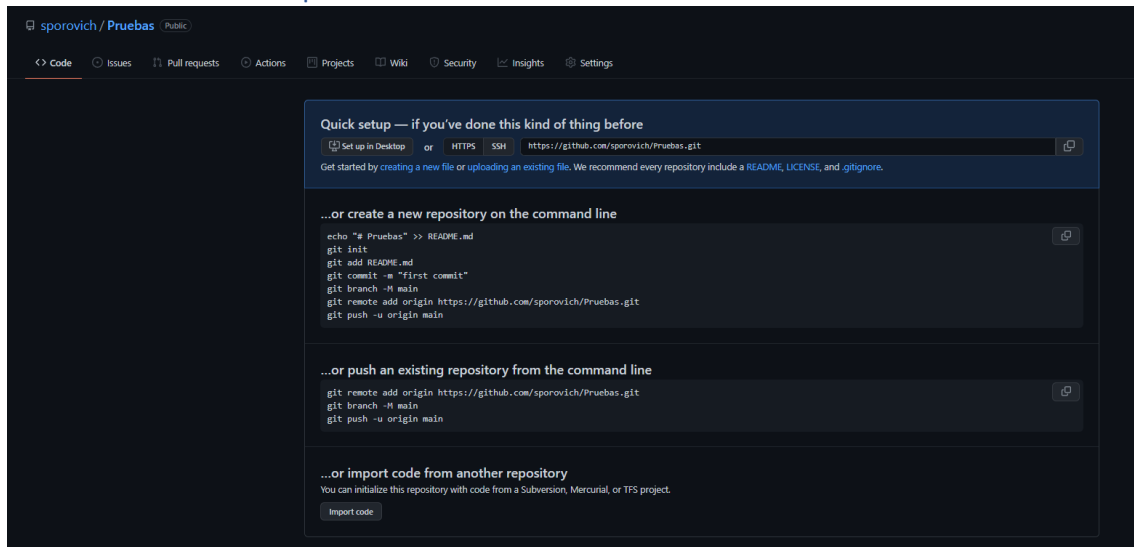

Rellenar los datos necesarios

Entrar en el repositorio creado

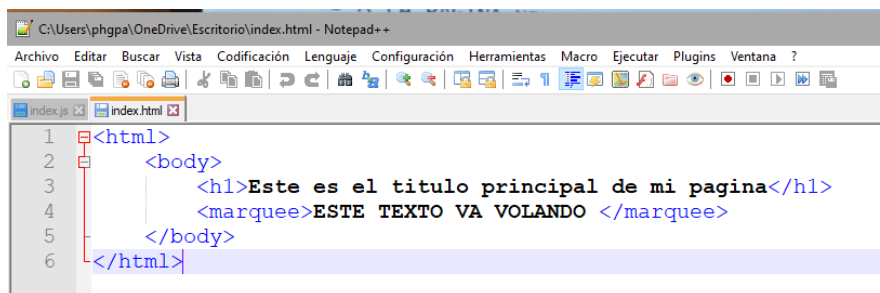

Ver Contenido repositorio

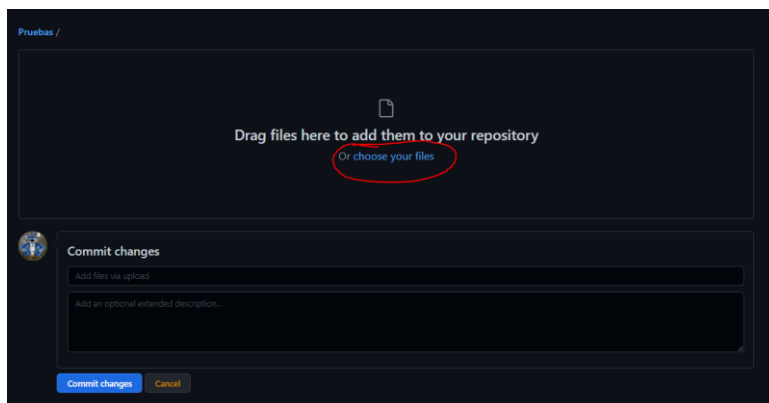

Crear o subir un archivo

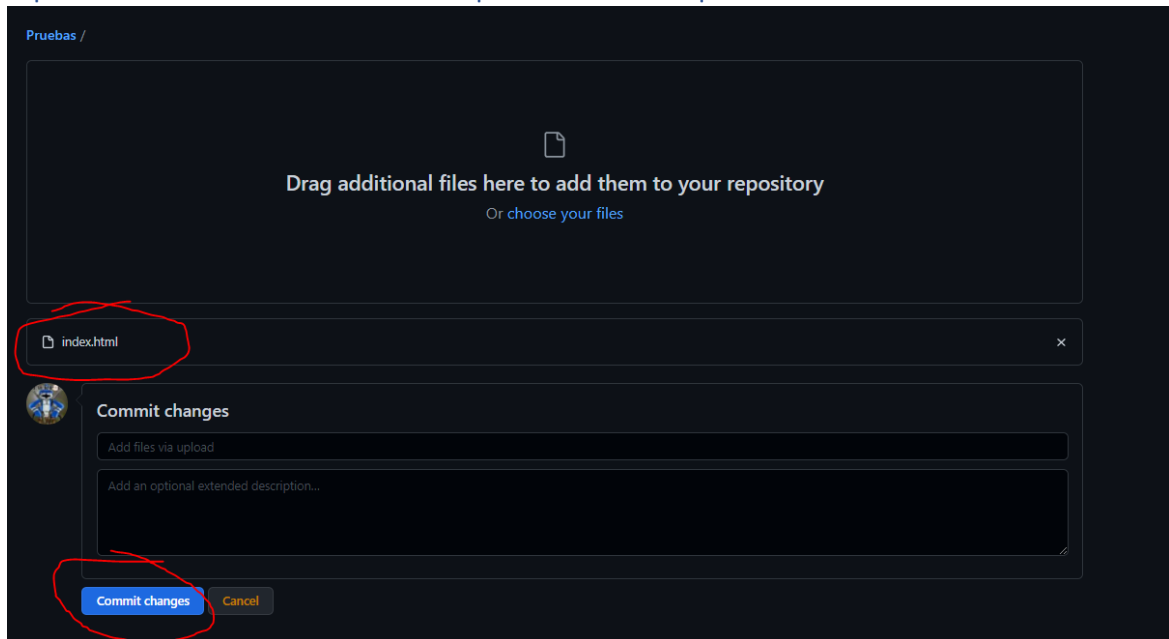

Crear un fichero con contenido HTML

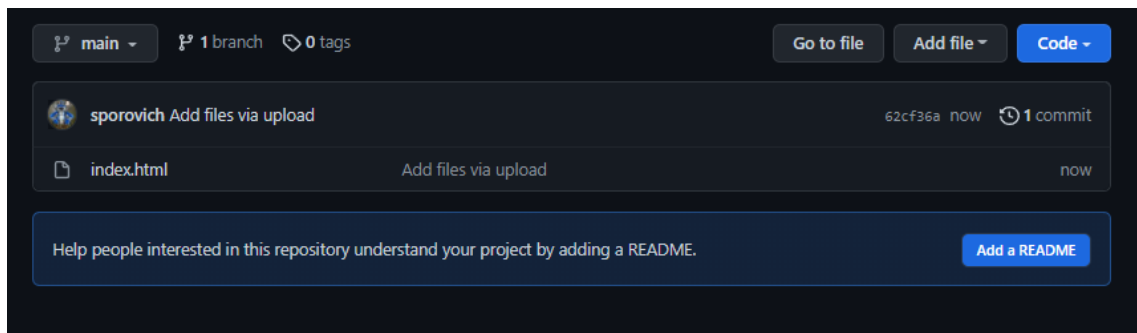

Seleccionar el fichero creado anteriormente

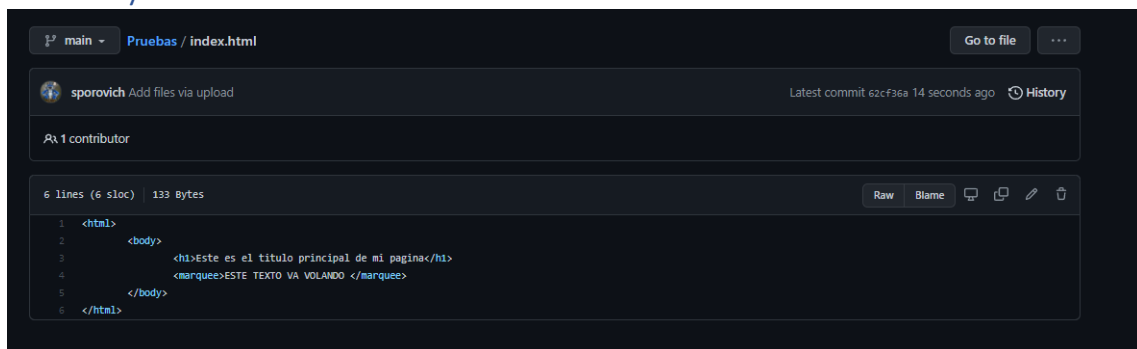

Aplicar los cambios en el repositorio después de tener un fichero

Ver fichero creado

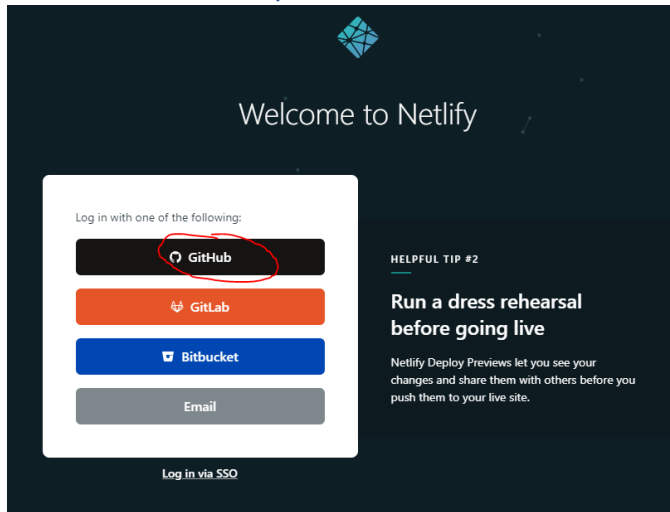

Entrar y ver en el fichero creado

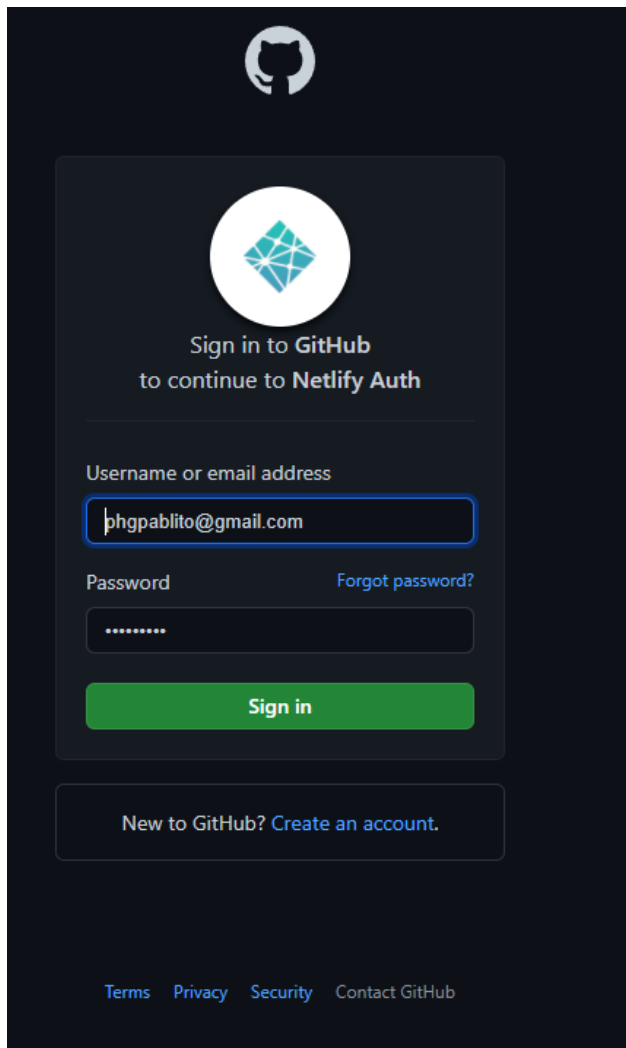

Netlify

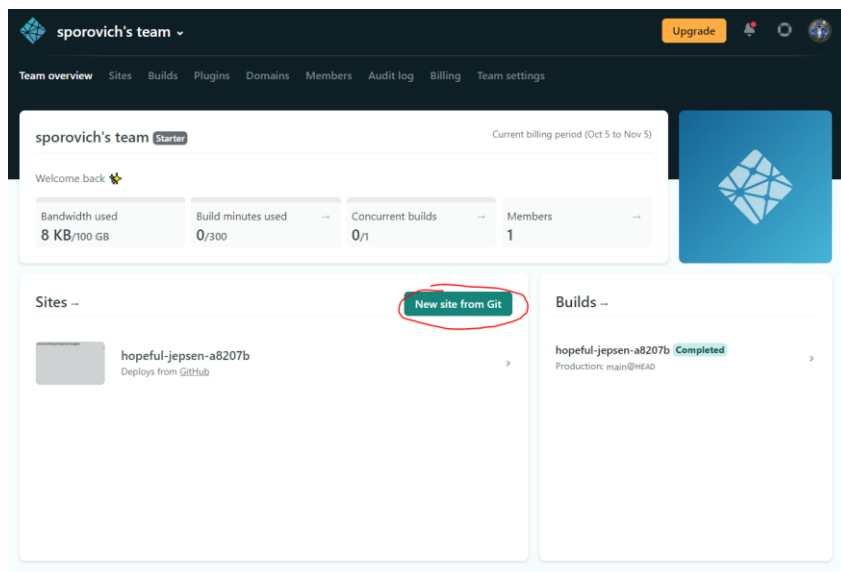

Entrar en Netlify con GitHub

Seleccionar nuestra cuenta de GitHub

Crear un nuevo sitio desde GitHub

Seleccionar proveedor donde se sitúa nuestro código (GitHub)

Create a new site

From zero to hero, three easy steps to get your site on Netlify.

1. Connect to Git provider

2. Pick a repository

3. Site settings, and deploy!

Continuous Deployment

Choose the Git provider where your site's source code is hosted. When you push to Git, we run your build tool of choice on our servers and deploy the result.

You can [unlock options for self-hosted GitHub/GitLab](#) by upgrading to the Business plan.

Seleccionar el repositorio que hemos creado en GitHub

Create a new site

From zero to hero, three easy steps to get your site on Netlify.

1. Connect to Git provider

2. Pick a repository

3. Site settings, and deploy!

Continuous Deployment: GitHub App

Choose the repository you want to link to your site on Netlify. When you push to Git, we run your build tool of choice on our servers and deploy the result.

Can't see your repo here? [Configure the Netlify app on GitHub.](#)

Rellenar los datos necesarios y desplegar sitio

Create a new site

From zero to hero, three easy steps to get your site on Netlify.

1. Connect to Git provider 2. Pick a repository 3. Site settings, and deploy!

Site settings for sporovich/Pruebas

Get more control over how Netlify builds and deploys your site with these settings.
